

# ARNOLD TIDINGS

## BULLETIN OF ST. ARNOLD'S SCHOOL

### It's The Principal's Say

Dear Parents, Teachers and Students,

Greetings from St Arnold's School!

Another academic year is getting over and students will soon get their results. All will be rewarded according to the efforts they have put in during the year. Although it is not right to measure success only in academic terms, the aspects that determine success is same in all the fields; be it in sports and games, dance and music, art and craft or relationship with oneself and others. How does one achieve mastery in a field? The answer is **PRACTICE** and not just practising once a while but practice that has become a **HABIT**.

How does one become a footballer or a dancer or an artist or a person who has self-control? All through practice that has become a habit. Once you create a constructive habit, that habit can naturally take you to success. If one has the habit of getting up early and studying, that person will score better in the exam. Whereas if one has the habit of sleeping too long and postponing his work, there are chances that he may face failure. For some it is a fashion to carry around a guitar but for some others guitar is passion. One who is passionate will master it and produce melodious music. During the academic year we had so many activities such as Dance Drama competition, Teacher's Day celebration, Science Exhibition, Annual Day, Annual sports, various tournaments, etc. Everything came out so well and the reason is practice. **Practice makes Perfect!**

We can apply the principle of practice not just in academics, skills and talents but also in developing a good character and behaviour. Both positive and negative behaviours are results of practice. If one gets angry with anyone and everyone for silly reasons, one can become an expert in getting angry with everyone. If one finds fault with everything and everyone one will never be able to find goodness in the world around. He/she will turn out to be an unhappy and discontented person. I believe that neither anyone would like to be such a person nor be in the presence of such a person.

Whereas, if you practice happiness, you will be a joyful person. If you practice forgiveness, you will be peaceful person. If you practice kindness and making others happy, how wonderful this world would be! We all wish to be in the presence of such a person. Let us be such a person first. Let us practice kindness in our families, in our classrooms and in the games field, in our places of work and wherever we travel. So dear friends, in this coming year let us make **KINDNESS** a **HABIT** by practicing it daily in our thoughts, words and actions. Let **Year 2020** be a **YEAR of KINDNESS**. God bless us all.

# From The Editor's Desk

A new year starts with new hopes and aspirations – a faint desire that sprouts in every human heart that yearns for happiness, prosperity and goodness. On behalf of our school, I consider it a great honour to present the first edition of our school magazine 'Arnold's Tidings' for the year 2020-21.

Very few have fully realised the words of sympathy, kindness and generosity hidden in the soul of a child. The effort of every educator should be to unlock that treasure and St. Arnold's School is an excellent example where everyone strives effectively to achieve this. This renowned institution has been nurturing young minds of the town, since it was born, under the expert guidance of Rev Fr K. C. Thomas, SVD (Manager) and now, at present, under the able leadership of Rev Fr Francis Jos, SVD (Principal) whose audacious support has ignited the insight of the Arnoldines.

The school is an incarnation of self-respect, love, affection, sensibility, responsibility and compassion which puts the students into a state of flow and make them genuinely eager to learn. The fifth batch of class X and fourth batch of class XII will be appearing their board examination this year. We wish that the conscientious and joint efforts of the teachers will get the students exemplary results in the Board Examination 2020.

Today, the world is changing at a rapid pace driven by science and technology. Merely academic teachings do not prepare students for life. In order to prepare the young generation to face the real-life challenges and problems of the world the educational institutions and educators should focus on the creation of an ethical and a respectful mind through value education inculcation along with building competence in the children. Our school had organised three days Science Exhibition from 29th November to 1st December 2019 with a view to encourage and inculcate scientific temper among students. The children showcased their talent in various topics related to Plastic Pollution, Climate Change, Human Health and Well Being, Water Crisis and Soil Degradation and Sustainable Technologies.

The special attraction of these three days mega event was the cultural programmes presented by talented children of class X who created awareness among the viewers through various means like power point presentation, mime act, talk shows etc. The exhibition was a great success with 100% participation of students from classes VI to XII. The St. Arnold's media team covered the exhibits and other events held during these days. We had visitors from different schools of the city alongwith teachers, principals and parents. The exhibition was inaugurated by Dr. P. Bala Subramanian (Assistant Professor, Department of Biotechnology and Medical Engineering, NIT, Rourkela). The exhibits were evaluated by a panel of research scholars from National Institute of Technology, Rourkela.

The purpose of education truly finds its resonance through the words of Sydney. J. Harris, as quoted below:

**“The whole purpose of education is to turn mirrors into windows.”**

Our mission at St. Arnold's is just to do that. We believe in turning mirrors into windows; window through which the soul sees the world, feels the impact and flies with courage to shape the world of their dreams. We are ready to explore new ideas and options in order to improve the quality of education that we offer. Besides the regular classes, our school provides extra help to the children in the form of remedials so that children understand the concept well and are free from the burden of tutions. Friday activities give them an opportunity to refine their extra talent with professional help and assistance. Nurturing creativity and inspiring innovation are two of the key elements of a successful education. Arnoldines are ready to explore the skies with the wings of education!

I take this opportunity to thank Mrs Leena Menon and the entire teaching staff for their constant support and co-operation. I hope this souvenir will enjoy your critical acclaim and prove itself to play a vital role in all-round development of the children. Let us learn, grow and progress together.

**Ms. Rajbala Sharma**  
Chief Editor

*Keep your face to the sunshine and you cannot see a shadow. – Hellen Keller*

## India- Not of my Dreams

Gone are those days when we were law abiding and traditional

The present situation of the country is very alarming and unconditional

People have forgotten the lyrics of patriotic songs

But 'Shape of You' and 'Despacito' is on everyone's lips.

Dirty politics and tricks prevail

Criminals move freely after getting a bail

People are dying because of poverty and hunger

Yes, they are burning inside but choose not to express their anger!

They march with the slogans '**Save the Girl Child**'

But are girls safe from the ravages and the wild?

Our civics book teaches "India is a secular country",

Still, in some sacred places a particular religious group has no entry!

This isn't the India of my dreams

My India is full of scopes and opportunities for all where government plans good schemes

Let's all realise before it's too late

It's better to fight for our right than just crying on our fate!!

**Apurvi Giri, X C**

## Just for Today

Life is a beautiful journey  
Yesterday cannot be changed  
We must work hard today  
To make our future beautiful

Just for today, I will rise and live my life to the fullest.

Just for today, I will be unafraid and enjoy all the beautiful creations of God.

Just for today, I will strengthen my mind and concentrate in studies.

Just for today, I will control my anger and foster a healthy relation with everyone.

Just for today, I will prove that I am the best!

**Anisha Khalkho, III**

## My Cell Phone

My screen reads 3:10 a.m.

I must sleep now,

I ponder...

But Alas! My eyes refuse

And I scroll through

The myriads of videos,

And of hubris,

That keep me awake,

And alive.

My fingers feel its metallic encasing,

My eyes take in its artificial sheen,

The illumined glass traps me

In its cage of illusory freedom,

Making me dependent,

Making me crazed.

I give myself away,

I am undone,

I am n't free,

I am finally a slave

To the cell Phone,

My love, my torment.

**Priyansu Pradhan, VIII B**

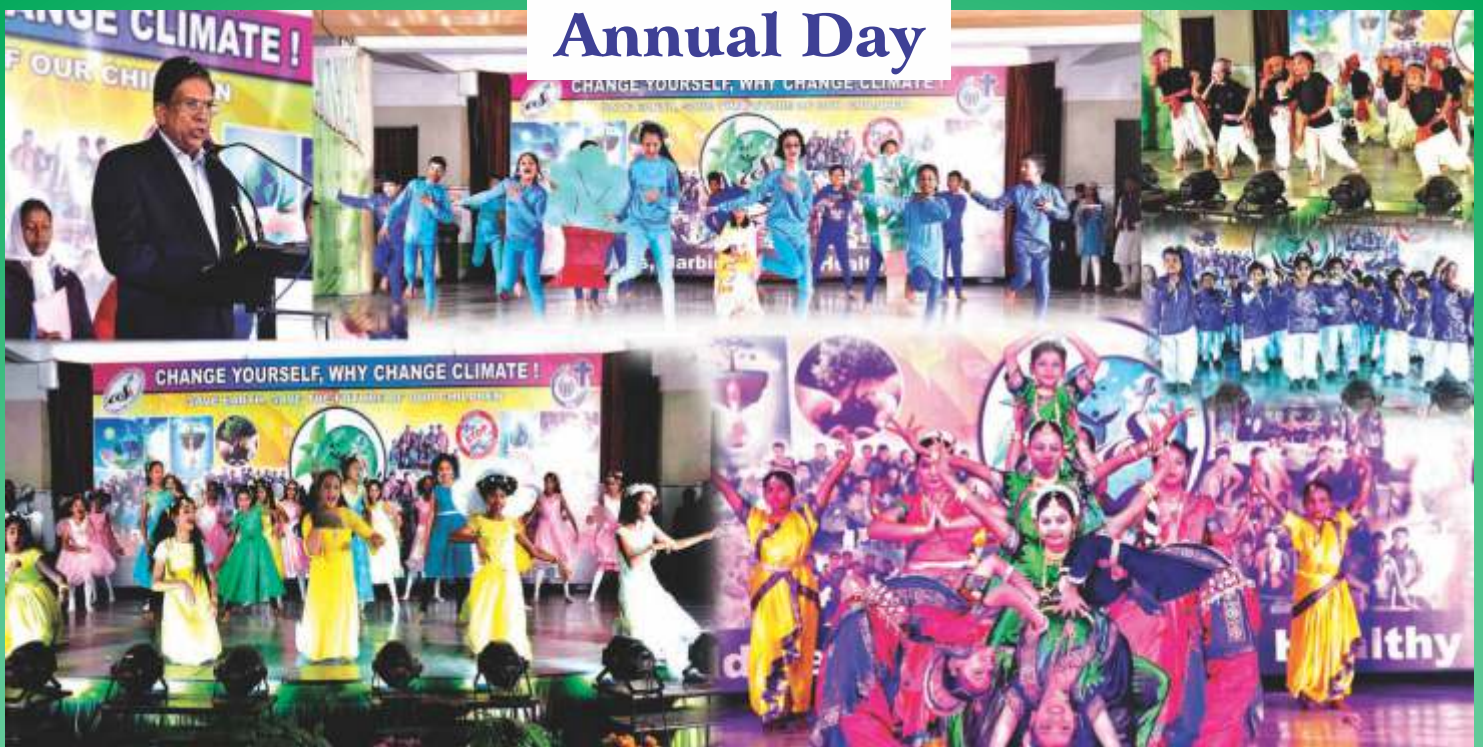

## Homework- A help or Punishment?

The term 'homework' is scary enough to grab the attention of all students. But do we know the actual meaning of it? As the term reads 'homework', it refers to the work that needs to be completed at home. It's really astonishing that for some children homework is being considered as an ultimate package of tension. On the contrary, for some it is really helpful as it helps them to revise what is being taught in the school. It makes us responsible and active too! Teachers play an important role in this. After all, they are the one who bless us with this extra work at home. I humbly request all the teachers to give us home work in a limit. Sometimes, it really scares the devil out of us when we are unable to complete it on time. What we fear the most is sitting outside the class and writing it 100 times "We have not completed our work on time". ☺☺

**Swati Selina Sahoo, VII C**

Yesterday is history. Tomorrow is a mystery. Today is a gift. That's why we call it 'The Present'. – Eleanor Roosevelt

# Annual Day

Our School celebrated its Annual Day with glitz and glory on 7th December 2019. The theme "Change Yourself, Why Change Climate!" was presented meticulously by students from grade Nursery to Class V.

## COLOUR DAYS

Toddlers of Nursery, LKG & UKG celebrated Colour Days from 30th September to 4th October 2019. All the students were elated. Lovely days passed by getting introduced to the colours of love and happiness.

## GANDHI JAYANTI

The school celebrated the 150th Birth Anniversary of the Father of the Nation with great zeal and enthusiasm.

## CHILDREN'S DAY

Children's Day celebrated with fun and frolic. Special performance of teachers added colour to the occasion.

Strength does not come from physical capacity. It comes from an indomitable will. — Mahatma Gandhi

## Our Sins

Tears are rolling down my eyes,  
It's high time that we need to realize  
Our bad deeds committed in the past  
Will destroy our future and mother Earth  
Is not going to last.  
We are demons in human shape  
We've plundered and destroyed the landscape  
For mankind it's a big shame  
But we have only ignited the flame  
We are the sinners of our sins!  
We are the sinner of our sins!

**Hansika Sahu and Sharon Toppo, VIII B**

## Morning Alarms

So above the trees, so close to the clouds  
It felt like, it was the top of the world  
Not just a figure of speech, but in reality  
I was there, standing, breathing in freshness!  
But then.... I slipped (Oh...No...!)  
Nay, don't worry, my head is fine.  
It was just my mother,  
Who dragged the blanket off my feet.

A bike ride with friends,  
To the beautiful and surreal hills of Ladakh,  
I was living the dream of hundreds.  
Then suddenly, I crashed and boom  
I landed on the ground with my bum which still hurts.  
Reason, why I prefer to sleep on ground.

All suited up with my swim fins on.  
Ready to explore the world beneath.  
The world which seemed so subtle and  
so mysterious from up here.  
I took a leap and splash  
It felt so cool underneath.  
The next moment I woke up red-faced  
I guess now you know,  
What made me feel cool, like water underneath.

Ugh! I'm done with these morning alarms.  
What am I even asking for?  
Just two more minutes,  
To breathe, to see, to feel and to explore my dreams.  
Which I hope will turn into reality someday  
But yes, except for ending like these,  
I look for happy ending instead.

**Isha Rani Sahoo, XI I, A (Sc.)**

## The Better Me

With the hours passing by,  
I looked out of the window at the clear blue sky  
I questioned the purpose of my life  
And wondered if it was just fine.  
Oh! That euphoric feeling of making my parents smile,  
And that depressing moment of being  
the cause of their plight  
Winning the challenges when I was sure to lose,  
And then being someone's idol and muse.  
But suddenly seeing the sun set  
I realised with the good times,  
I never met.  
Losing a shoulder when I had to cry  
But when I strengthened my mind,  
I found someone to rely.  
All of me came apart,  
As I discovered 'I' am the one, 'I' have lost.  
Through all these hurdles,  
I brought forth a better me,  
For life didn't go as planned, you see!  
Today, As I questioned my inner self: "Who are you?"  
Deep down came a reply:  
"I am you, but better and stronger!"

**Maanyaa Khatri, X D**

## The Inevitable Plastic

Oh Plastic, Oh Plastic  
How useful you are!  
Though you are useful,  
But dangerous you are!

You are responsible for climate change,  
Promoting risk to human, health and environment.  
Why don't we put a ban you on your use?  
When so dreadful you are!

How can we forget you?  
From water bottles to air crafts,  
You are everywhere used.  
You can never be a problem,  
The problem is using you irresponsibly.

Oh Plastic! Oh Plastic!  
It's impossible to think of an easy life without you.  
Putting a ban on your use cannot be the solution  
But using you responsibly and recycling can!

**Lovish Agarwal, IV E**

# SCIENCE EXHIBITION

*Some Best Topics Presented During The Exhibition*

## AGROTRONIN

Urbanisation has led to depletion of cultivable land and that which is currently under cultivation has fairly degraded. So, in order to solve this problem our team has developed a project named '**Agrotronin**' which we believe will bring about a revolution in the smart agricultural industry of India.

Our system is a hybrid of continuous flow solution hydroponics and aquaponics along with an automatic drip irrigation to make the best out of the available resources. Our system is also equipped with temperature and humidity sensors which can display the data in real time online on our website along with the feature to control the system remotely through a smartphone. It is also equipped with artificial lights which emit a wavelength in the range 200-495nm for best possible growth of plant both during day and night. The main aim behind developing this project is to make the best of our country's resources and to strengthen our economy.

### **Team Members (Class X-XII):**

Abhishek Ganguly, Aditya Vijayraj,  
Eeman Majumdar, Raj Nandini Singh,  
Ayuri Roselin Ekka, Subhanker Chel

## ACID RAIN

'Nitrifying carbons' is a creative way of testing water before using it in the fields. In this method extract from Beet root is used as a natural indicator to identify the pH of water. Betalain - red and yellow derived pigments changes colour according to the pH of water. This project highlights the hardships faced by farmer due to acid rain.

### **Team Members (Class IX):**

Ritik Roshan Parichha, Smruti Ranjan Das,  
Pradyumna Das, Pradyut Lakra, Rupesh Xalxo,  
Praveen Kerketta

## TYPES OF POLLUTION AND THEIR REMEDIES

Environmental pollution occurs when pollutants contaminate the natural surroundings. With the development of science and technology, there has been a huge growth of human potentials. People have become prisoners of their own creations. Our project aims at creating awareness among people about different types of pollution existing in the environment and ways to reduce them. Let's not pollute the water we drink, the air we breathe and soil we use to grow our food.

### **Team Members (Class VI):**

Vinayak Kedia, Mayank Agarwal, Tashan Kumar Paira,  
Shreya Prasad, Suhani Pattnaik,  
Uday Pratap, Jeevanjyot Singh

## HEALTH HAZARDS OF PLASTIC WASTE

Plastic is both a boon and a curse to the mankind. By not using the plastic judiciously we possess a serious threat to the mother Earth. We have selected this topic for our project as our group want to create awareness about the harmful impact of plastic on human health. The harmful gases released in the atmosphere when plastic is burnt are nitrogen oxide, sulphur oxide, etc. We also showed the impact of plastics on marine life and agricultural practices.

### **Team Members (Class VIII):**

Priyanshu Pradhan, Sailesh Kiro,  
Hemant Khandelwal, Ramachandra Munda,  
Hitesh Barla, Krish Kumar

# SCIENCE EXHIBITION

## ECO-SAN TOILETS

### To meet the needs of village people

Open defecation is the human practice of defecating outside rather than into the toilet. It can pollute the environment and cause health problems. We displayed the working of an Eco-San toilets in our project. An eco-san toilet has many benefits. It is cost effective, it does not pollute groundwater and the compost can be used in farming. We want to create an awareness among the people, especially people who live in rural areas to eradicate the problem of open defecation and to make them to think about to make an eco-san toilet in their area.

#### Team Members (Class VIII):

Anjali Sahoo, P. Radharani Patro, Ansh Mittal,  
Satarupa Dutta, Vanshveer Singh Sandhu,  
Aditya Pandey

## OZONE GARDEN

Ozone gas protects us from the ultra-violet rays of the sun. But it is very harmful to all the organisms, when this gas is produced in troposphere (first layer of atmosphere). In humans it causes severe diseases like Bronchitis, Asthma, etc. It is produced in troposphere mainly because of release of chemicals by factories. Our team came up with the unique idea of making a small ozone farm which contains ozone pollution detecting plants such as potato, milkweed, etc. These plants show certain symptoms when they come in contact with ozone pollution i.e. dark spots. This method is very much beneficial and is also cost effective.

#### Team Members (Class VII):

Rudra Narayan Mohapatra, Sneha Nayak,  
Anjini Xaxa, Avish Minz,  
Shree Vidya Rao, Manushree Routray

## INK SQUAD

As a proud supporter of street culture and sustainability, our team came up with a bold idea: "**use air pollution to fight air pollution.**" The project aims at collecting carbon from a source of smoke and by mixing the collected carbon with various organic solvents, manufacturing ink or paint out of it. This concept can really help to curb the situation of pollution and also contribute towards the artistic state of mind.

#### Team Members (Class X - XII):

Ashish Prakash, Aditya Pratap Agarwal,  
Ankit Sethi, Miit Dholakia,  
Shalini Tirkey, Swati Sahu

## THIRD EYE FOR THE BLIND

According to a report of WHO, 39 million people are estimated to be blind. They are suffering a lot of hardship and the tools and devices available for them are still not sufficient. We have selected this topic to create awareness about the device which can help the visually impaired people to detect the nearby objects with the help of sensors. This device can be worn like a cloth. The intensity of vibration and rate of beeping increases with decrease in distance. The aim of our project is to develop a cheap and more efficient way to help visually impaired people to navigate with greater comfort, speed and confidence.

#### Team Members (Class X-XII):

Nilesh Tiwari, Shreyan Bakchi, Anurag Pradhan  
Tanisha Agarwal, Khusboo Goel, Bawab Raj Gupta

## ATMOSPHERIC WATER GENERATOR

This innovative project is a step towards generating water from the atmosphere at higher altitude. The water vapour in the air condenses to water droplets due to variation in temperature. The condensed water accumulates in the water collector, which can be stored and utilised at the times of need.

#### Team Members (Class IX):

Adarsh Agarwal, Marion Ekka, Ankit Chakraborty,  
Santosh Kishan, Aditya Prasad, Janvi Sharma

## YOUNG INNOVATORS OF ST. ARNOLD'S

Science and technology can solve all the world's problems and historically it has been shown to make the world better and better. ~ Zoltan Istvan

## I Am Lucky

If I were a butterfly  
I would be thankful  
For my wings.

If I were a myna in a tree  
I would be thankful  
That I could sing.

If I were a fish in the sea  
I would be thankful  
That I can wriggle and giggle with glee.

So, I just think I am lucky to be "me"  
I am original and worthy.

**Koushik Mohapatra, II D**

## The Living Angels - Mom and Dad

Her pure love is showered on me till I close my eyes,  
I am blessed with his silent love which makes me responsible and wise.

She introduced me to the world,  
Helps me to grow and prosper.

He introduces the world to me,  
Makes me ambitious and stronger.

She cooks for me and never let me starve.

He builds my character and good values he carves.

She protects me from falling,  
With her kind words giving moral support.

He teaches me how to rise again after a fall,  
Though his words are rude but it's unique love of its sort.

She ~ my angel, my love, my source of strength,  
I am known to my Mom's love since birth.

He ~ my hero, my motivation, my guiding light

He rarely shows his soft side ;

But no one loves me like my Dad on this entire Earth.

**Ashish Roshan Dung Dung, XI C**

## The Lost Bird

My mother lost her friend during childhood  
Now she recalls the days, when on the terrace she stood  
Feeding those tiny tots with grains of rice  
And the little birds chirped for the humans wise.

As the days passed with human's greed  
The mobile tower surpassed the bird's need  
In the city, the tiny creatures no more hop.  
Nor they are seen on the rooftop.

Gone are the days of a sparrow  
A bird endangered to be seen tomorrow.

**Sailesh Kiro, VIII B**

## Life Is Tough

Life is tough  
When income is low  
It makes the journey of life little slow  
In today's world,  
What matters is the speed of car  
As the one with maximum speed is known to be 'a STAR'  
Others are called fool  
Because they don't pretend to be COOL.

Life is tough  
When you have wealth  
For the need of love is often felt  
Money can't buy love,  
And that's the thing  
What rich people lack.

Life is tough  
When work takes all time,  
To spend time with loved ones  
Is now-a-days, a brutal crime.  
Pressure from office increases the worry,  
For in this world  
No one gets the time to be merry.

Life is tough  
When you are a teen,  
For when you look around  
Everything seems to be green  
But don't misjudge,  
The greenery is fake  
From your life,  
All happiness it will take.

Life is tough,  
When friendship is rough,  
You need a lubricate to smoothen it,  
And that lubricate is 'love'.

Love lies within us,  
But we fail to see  
If we'll find love in tiny objects  
How happy our life will turn out to be!

**Kavya Goel, VII D**

## Your Heart

If your heart is filled with love  
And is kind, gentle and pure  
You may reach the Zenith of success  
Of this you can be sure!  
But if your heart is filled with  
Greed and is uncaring and cold  
You will remain there forever  
Growing bitter, grey and old!

**Elias Lakra and Rahul Dungdung, VIII**

Only surround yourself with people who will lift you higher. — Oprah Winfrey

## किसान की किस्मत

सबका पेट भरने वाला,  
खुद भूखे पेट सो रहा।  
कोई नहीं सुध लेने वाला,  
लड़ रहा हक की लड़ाई।  
अपने और औरों के लिए,  
देख प्रभु कैसी है यहाँ की नीति।

किस्मत आज किसान की,  
कर्ज में डूब चुका है इतना,  
शायद नहीं रहा कोई जात अब  
अन्नदाता के जान की।  
देख प्रभु कैसे हो साथी,  
किस्मत आज किसान की।

खून-पसीना एक कर वह,  
खेत पे हल चला रहा,  
आवलेप की सुखियाँ बनाकर,  
बेच रहे क्या बलिदान की।  
देख प्रभु कैसी हो गयी,  
किस्मत आज किसान की।

प्रियांसी प्रधान, ८ 'ख'

## क्लास मॉनीटर

जो क्लास में बने मॉनीटर,  
कोरी शान दिखाते हैं।  
आता-जाता कुछ भी नहीं,  
पर हम पर रौब जमाते हैं,  
जब क्लास में टीचर नहीं,  
तो खुद टीचर बन जाते हैं।  
कॉपी पेंसिल लेकर,  
बस नाम लिखने लग जाते हैं।

खुद तो हमेशा बाते करें,  
हमे चुप कराते हैं।  
अपनी तो गलती माफ़,  
बलि हमें चढ़ाते हैं।  
क्लास तो सँभाल नहीं पाते,  
बस चीखते और चिल्लाते हैं।

रिचा सिंह, ८ 'क'

## IX 'E' की बिशाली बातें

हमारी कक्षा कुछ ऐसी है हुजूर,  
कक्षा अध्यापक है उसके फ्रेडरिक कुजूर।

हमारी कक्षा से परेशान रहते हैं वो,  
लेकिन फिर तीन-तीन विषय लेते हैं वो।

अंग्रेजी, जीऑग्राफी और सिविल्स  
पढ़ाते हैं वो कमाल,  
हर स्टाफ कक्ष में हमारे चर्चे  
ने मचा रखा है धमाल।

लोग कहते हैं नहीं पार करनी  
चाहिए हिंदी के स्पेलिंग्स की सीमा,  
हम सबको हिंदी पढ़ाती हैं मिस अनिमा।

गणित में तो हमारी कक्षा ने कर रखा है  
अपना मुँह काला-काला,  
विजयलक्ष्मी मैम के पिरियड में कैफ़  
और प्रतिक करते हैं बल्ले-बल्ले।

अमन् की नहीं है कोई हिस्ट्री,  
सोनम मैम पढ़ाती है हमें कैमस्ट्री।

सात्विक अपने में ही है एक मिस्ट्री,  
राजबाला मैम पढ़ाती है हमें हिस्ट्री।

ग्रेविटी के कारण अकसर नीचे आते है लोग,  
आरती मैम की कक्षा में  
टिफिन खाते अकसर पकड़ाते है लोग।

बीमार पड़ते है हम, खाने से बर्गर, पीज़ा।  
बॉयोलॉजी पढ़ाती हैं हमें मिस मोनालिसा।

ये थी हमारी कक्षा IX ई,  
आपको जरूर आकर देखना है जी।।

आदर्श अग्रवाल, सौभित वर्मा

एवं सात्विक दास

## स्कूल के दोस्त

कुछ महिनों बाद, हम सब बिछड़ जाएँगे,  
मगर एक बात सच है,  
स्कूल में बने दोस्त, बड़े याद आएँगे।

टीचर को जो नाम पता भी ना हो,  
उन नामों से, उन्हे बुलाना।

क्लास में बच्चों को बिना भनक लगाए,  
उनके बैग से टिफिन चुराना।

एक यार की शैतानी से, पूरा क्लास पनश्मेंट खाता था,  
कूसूरवार चाहे कोई भी हो, पूरा क्लास दोस्ती निभाता था।

दोस्त को कोई और छू भी ले, तो बात मार-पीट तक  
जाती थी,  
जब यार अनुपस्थित हो क्लास में, तो उसकी बहुत याद  
आती थी।

कुछ साल बाद सही, ये कहानियाँ अपने बच्चों को भी  
सुनाएँगे,  
एक बात तो सच है यारों,  
स्कूल में बने दोस्त बड़े याद आएँगे।  
वो क्लास के बीच में टिफिन खोल कर आराम-आराम  
से खाना।

बोरिंग लेक्चरस में सर पे हाथ रख कर चुप-चाप सो  
जाना।

जब क्लास में ध्यान न हो, तभी सवाल पूछने के लिए  
टीचर खड़ा करती थी,  
और जब उत्तर न आए तो प्रिंसिपल ऑफिस ले जाती  
थीं।

टिफिन खाने के बाद, बेंचों को दोस्त के बैग से साफ़  
करते थे।

कोई अपनी बैग से तो साफ़ नहीं कर रहा, बस इसी बात  
से डरते थे।

माना, जिंदगी में आगे बहुत से नए दोस्त मिल जाएँगे,  
पर ये ही सच है,  
स्कूल के दोस्त ही, सबसे अधिक याद आएँगे।

आयुस्मती महान्ती, १० 'ख'

विश्वास वह शक्ति है जिससे उजड़ी हुई दुनिया में प्रकाश लाया जा सकता है।

## Sahodaya Cricket Tournament

SPORTS DAY

*Sports are the epitome of hard work and dedication.*

## Basket Ball

Gold medals aren't really made of gold. They're made of sweat, determination, and a hard to find alloy called guts. — Dan Gable

## ରାଉରକେଲା

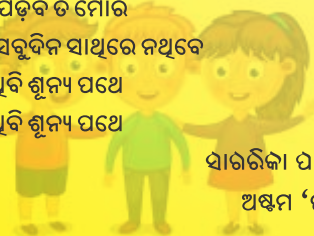

ଆପଣାପଣରେ ହଜାଇ ଦିଏ ସେ,  
ସହର ରାଉରକେଲା,  
ଯିଏ ଦିନେ ମୋତେ ଆଗେ ବଢ଼ିବାର  
ବାଟଟା ବତାଇଥିଲା ।  
ବହୁ ଭାଷାଭାଷୀ ପୁରା ଦେଶବାସୀ  
ଏକାଠି କରନ୍ତି ବାସ ।  
ନାଟକ, ସାହିତ୍ୟ, ସଂଗୀତର ହୁଏ  
ଏଇଠି ନିରନ୍ତର ଚାଷ ।  
ସିଭିକ୍ ସେଣ୍ଟର, ଭଞ୍ଜକଳା କେନ୍ଦ୍ର  
ଓ ଭଞ୍ଜଭବନ ଆହା !  
ଉପାନ୍ତ ଅଟଳେ ଓଡ଼ିଆ ସଂସ୍କୃତି  
ବଂଚାଇ ରଖିଛି ଯାହା ।  
ହକି, ଫୁଟବଲ, ଦୌଡ଼କୂଦ,  
କିମ୍ବା କ୍ରିକେଟର କଥା କୁହ ।  
ରାଜ୍ୟ, ଜାତୀୟ ଦଳରେ ମଧ୍ୟ  
ଦିଶେ ରାଉରକେଲାର ମୁହଁ ।  
ଶୀତ ଏ ସହରେ ଯେତିକି ନିଆରା,  
ସେତିକି ଟାଣୁଆ ଖରା ।  
ବସନ୍ତ କେବଳ ଏ ସହରରେ ଦିଶେ  
ଯେବେ ଗଛ ହୁଏ ପତ୍ରଝରା ।  
କାମ ସାରି ଯେବେ ଲସାତ ଶ୍ରମିକ  
ଘର ମୁଁହା ହୋଇଥାଏ ।  
ବିର୍ସା ଛକରେ ସେ ଦୃଶ୍ୟ ସତରେ  
କେତେ ମନୋରମ ଦେଖାଯାଏ ।  
ଲୁହା କାରଖାନା ସିନା ଗଡ଼େ ଏ ସହର,  
କିନ୍ତୁ ହୃଦୟ ସେଭଳି ନୁହଁ ।  
ଥରେ ଯେ ଏ ସହର ପ୍ରେମେ ପଡ଼ିଛି ।  
ଏ ଯାଏଁ ରହିଛି ମୋହ ।  
ଏ ସହରର ପ୍ରତିଟି ମଣିଷ,  
ଶିଖାଏ ଜୀବନ ଗାଥା,  
ଦୂରରେ ରହିଲେ ବି ଭାରୁଥାଏ ବସି,  
ରାଉରକେଲାର କଥା ।

ଆଧୁନିକତା ମହାନ୍ତି  
ଦଶମ 'ଖ'

## ସାଜ

ହସ ହୋଇପାରେ ପ୍ରତି ମୁହୂର୍ତ୍ତରେ  
କାନ୍ଦ ହୋଇପାରେ ବେଳେ  
ଏଇ ସାଜସାଥ କାଲିକୁ ନଥିବ  
ବସିଥିବି ଶୂନ୍ୟ ପଥେ  
କାହାକୁ ଦେଖିବି କାହାକୁ ଜାଣିବି  
ମନେ ପଡ଼ିବ ତ ମୋର  
ସାଜ ସବୁଦିନ ସାଥରେ ନଥିବେ  
ଚାହିଁଥିବି ଶୂନ୍ୟ ପଥେ  
ଚାହିଁଥିବି ଶୂନ୍ୟ ପଥେ

ସାରଳିକା ପାତ୍ର  
ଅଷ୍ଟମ 'ଘ'

## ଜୟ ମୋବାଇଲ୍

ମୋବାଇଲ୍ ଜୟ ଧ୍ବନି ଶୁଭେ ଚଉଦିଗ,  
ଚାରି ଯୁଗ ପରେ ହେଲା ମୋବାଇଲ ଯୁଗ ।  
ପୁଅ, ଝିଅ, ବୁଢ଼ା, ବୁଢ଼ୀ, ଯୁବକ, ଯୁବତୀ  
ସଭିକୁ ଘାରିଛି ନିଶା ମୋବାଇଲ ପ୍ରୀତି ।  
ଯାହାକୁ ଦେଖିବ ହାତେ ମୋବାଇଲ ଧରି,  
ଗପୁଛନ୍ତି, ହସୁଛନ୍ତି ସତେ ବାୟା ପରି ।  
ମୋବାଇଲ ଜୟ ମୋବାଇଲ,  
ଜୟ ହୋ ଜୟ ହୋ ମୋବାଇଲ ।  
ଆରେ ମୋବାଇଲରେ ଗପି ଗପି ଚଳାନ୍ତି ଗାଡ଼ି,  
ଦୁର୍ଘଟଣା ହୁଏ କେତେ ପ୍ରାଣ ଯାଏ ଉଡ଼ି ।  
ଛାତ୍ରଛାତ୍ରୀ ପାଠ ଭୁଲି ମୋବାଇଲ ଖୋଲି,  
ଖରାପ ଛବି ଦେଖନ୍ତି ଭୁଲ୍ ବାଟେ ଚାଲି ।  
ଟିକ୍ ଟିକ୍, ପବ୍‌କା ଖେଳ ଆଣି ଥାଏ ଦୁଃଖ,  
ଅକାଳରେ ଝଡ଼ି ଯାଏ ଜୀବନ ଅନେକ ।  
ମୋବାଇଲ୍ ଜୟ ମୋବାଇଲ୍  
ଜୟ ହୋ ଜୟ ହୋ ମୋବାଇଲ୍ ।  
ଶିଶୁ ଅଳି କଲେ ମା'ଆ ମୋବାଇଲ୍ ଧରାନ୍ତି,  
ପିଲା ପାଇଁ କ୍ଷତି କେତେ ଜାଣି ନପାରନ୍ତି ।  
ମୋବାଇଲି ଜରିଆରେ ଚାଲେ ଚୋରା ପୀରତି,  
ଫାଟ ପଡ଼େ ସଂପର୍କରେ ପରେ ସୁଖ ଶାନ୍ତି,  
ମିଛୁଆ ଯନ୍ତ୍ର ହେ ତୋତେ ଦୂରରୁ ସଲାମ,  
ମଣିଷକୁ କରୁ ନିରେ ତୋହର ଗୋଲାମ ।  
ମୋବାଇଲ୍ ଜୟ ମୋବାଇଲ୍  
ଜୟ ହୋ ଜୟ ହୋ ମୋବାଇଲ୍ ।

ତନ୍ମୟ କୁମାର ସାହୁ  
ଅଷ୍ଟମ 'ଖ'

## ମାଆ

ମା' ଗୋଟିଏ ଏମିତି ଶବ୍ଦ ଯାହା ଶୁଣିଲେ ମନ  
ଉଲ୍ଲସିତ ହୋଇ ଉଠେ । ତାହାର କୋଳରେ  
ସ୍ନେହ ଭରି ଥାଏ । ମା' ତା'ର ସାରା ଜୀବନ  
ଆମ ସେବାରେ ଲଗାଇ ଥାଏ । ମୁଁ ବି ମୋ  
ମାଆକୁ ବହୁତ ଭଲପାଏ । ଜୀବନର ସଂକଳ୍ପ  
ହେଉଛି ମାଆ । ମାଆ ପାଇଁ ଆମ ଜୀବନ  
ଆରମ୍ଭ । ସ୍ନେହ, ମମତାର ଅନ୍ୟ ନାମ ହେଉଛି 'ମାଆ' । ଛୁଆଟି ଯେତେ  
ଅସୁନ୍ଦର ହେଉ ପଛେ ମା' ତାକୁ କୁହେ, "ମୋ ଛୁଆଟି ଦୁନିଆ ସବୁଠାରୁ  
ସୁନ୍ଦର ଛୁଆ । ଯେତେବେଳେ ଆମେ ଗୋଟିଏ ଭଲ ମଣିଷ ହେଉ  
ସେତେବେଳେ ମା'ର ଆଖିରେ ଖୁସିର ଲୁହ ଆସିଥାଏ । ଆମ ବୟସ  
ଯେତେ ହେଲେ ମଧ୍ୟ ମାଆ ପାଇଁ ଆମେ ଛୁଆଟିଏ ହୋଇଥାଉ ଓ ମାଆ  
କୋଳରେ ଛୁଆ ପୁରସିତ ହୋଇଥାଏ । ତେଣୁ ଛୋଟ ହେଉ କି ବଡ଼ ହେଉ  
ମା'ଙ୍କୁ କେବେ ବି ହତାଦର କରିବ ନାହିଁ ।

ଧନ୍ୟବାଦ  
ଅନୁଷ୍ଠାନ ନାୟକ, ଚତୁର୍ଥ 'ଗ'

## ଫେରିବକି ସବୁଜତା

ଶୁଖିଲା ଫଳରେ ଲୁଚି ରହିଥାଏ,  
ଯେପରି ଶୁଷ୍କତା,  
ବୋଧହୁଏ ସେହି ଶୁଷ୍କତା,  
ବୃକ୍ଷ ବିହୀନ ଜୀବନର ବାସ୍ତବିକତା ।  
ଏ ପୃଥିବୀ ବିଶ୍ୱ ତପନର,  
ଶେଷ ଦୃଶ୍ୟ ଦେଖନ୍ତା ।

ହେ ବିଶ୍ୱନିୟନ୍ତା.....  
ମନେ ହୁଏ ଅସରାଏ ବର୍ଷା ହୁଅନ୍ତା,  
ମାଟି ଭିତରେ ଥିବା  
ବାଜିରିର ଅଳ୍ପରୋଦ୍ଗମ ହୁଅନ୍ତା,  
ଆକାଶରେ ମେଘ ସୃଷ୍ଟି ହୋଇ  
ବରଷି ଥାନ୍ତା ଆଉ  
ପୁଣିଥରେ ସବୁଜତା ଫେରନ୍ତା  
ସତରେ କ'ଣ ଫେରିବକି ସବୁଜତା !!  
ଏଥିପାଇଁ ଏ ମାନବ ସମାଜର,  
ମାନସିକତାରେ ପରିବର୍ତ୍ତନ ହେଉ,  
ହେ ସୃଷ୍ଟି କରା ।

ସୋମେଶ୍ୱର ପାତ୍ର  
ନବମ 'ଖ'

## ଆଜିର ବିଜ୍ଞାନ

ଆଦି ମାନବରୁ  
ଆଜିର ମାନବ  
କେତେ ଯେ ହେଲେଣି ଭିନ୍ନ,  
ସମୟର ସାଥେ ତାଳେ ଦେଇ ପୁଣି  
ହେଲାଣି ପରିବର୍ତ୍ତନ ।  
ଭୁବି ନାହିଁ ସେ ଅଜ୍ଞାନ ଅନ୍ଧାର  
ହୋଇ ନାହିଁ କୃପ ମଣ୍ଡଳ,  
ବିଜ୍ଞାନ ଆଲୋକେ ଆଲୋକିତ ହୋଇ  
ଦେଖାଏ କେତେଯେ କୁହୁକ ।

ତୃଆ ଆବିଷ୍କାର ତୃଆଁ ଉଦ୍ଭାବନ  
କରିଯାଏ ନିତି ନିତି,  
କମ୍ପ୍ୟୁଟର ସାଥେ ଆହୁରି କେତେଯେ  
ତୃଆ ତୃଆ ଯନ୍ତ୍ରପାତି ।

ଜଳ, ସ୍ଥଳ ଆଉ ଆକାଶ ପଥରେ  
ପାରିଛି ମାନବ ପହଞ୍ଚି ଥାକି,  
ଦୂରତାର ସବୁ ଅସୁବିଧା ଯାକ  
ଯାଇଛି ସବୁତ ଘୁଞ୍ଚି ।  
ମାରଣା ଅସ୍ତ୍ର ବି କରିଛି ବିଜ୍ଞାନ  
ବନ୍ଧୁକ ଗୁଳି ଯେତେ,  
ସବୁତ କରୁଛି ନିରାପଦପାଇଁ  
ଲାଗିବ ଜନତା ହିତେ ।

ଜ୍ଞାନର ବଳେ ବିଜ୍ଞାନ ବୁଦ୍ଧି  
ସବୁଠି ହେଉଛି ଭାରି,  
ମହତ କାମରେ ଲଗାଇ ପାରିଲେ  
ଯଶତି ମିଳିବ ତହିଁ ।

ପଦ୍ମିନୀ ପ୍ରିୟଦର୍ଶିନୀ, ଦଶମ 'ଗ'

ଜୀବନର ସବୁଠାରୁ କଠିନ ସମସ୍ୟା ହେଉଛି ନିଜକୁ ଚିହ୍ନି ପାରିବା!

## Rangoli Competition

## Special Achievement at IIT Kharagpur

Rangoli resembles life!  
All you have to do is connect the right dots to make them perfect!

P. Vridhi, IX 'A', Aditya Agarwal, IX 'C' & Manya Gupta, IX 'E', Our Students brought laurels to the school by participating in Young Innovators Programme 2019 at IIT Kharagpur. Our students made Bio-plastic from yam starch under the guidance of our Science teacher T. Arthi. They were in the 4th position among the top 6th finalists participating from different schools all over the country and abroad.

## Christmas Celebration

Like snowflakes, my Christmas memories gather and dance - each beautiful, unique and too soon gone." Our school celebrated Christmas with joy.

## Picnic Day

The picnic was a much needed break from the regular schedule of the students in school and the children made the best out of the day!

## Farewell

Filled with curiosity and zeal, the students of Class XI gathered to bid farewell to the outgoing Class XII.

## Republic Day Celebration

The 71st Republic Day was celebrated in all its solemnity and grandeur at our school. Air Veteran - Sergeant Manoj Kumar Nayak was our Chief Guest.

Everyday is a good day. There is something to learn, care and celebrate.
