## WHAT AFTER CLASS 10<sup>th</sup>?

### CAREER GUIDANCE

It isn't easy to decide on career option that will determine the rest of your life for you, especially at the tender age of 16 or 17. The confusion a student faces is huge and varied in nature.

Your course of study after 10<sup>th</sup> class may be more generalized, but they are essential in giving you a solid foundation for the career courses after 12<sup>th</sup>. Doing your research in advance can turn out to be fruitful in life.

There is no need to panic or become anxious. It is not advisable to make hasty, unplanned decisions due to **peer / parental pressure**. [It's important to pursue a field you are truly passionate about.](#)

The biggest decision post class 10 is picking the right stream. Picking the right stream is extremely important as everything that happens there after will depend on it.

At times students follow the **herd mentality** and pick the stream which their friends opt for or for the one which their parent's suggest. This is a wrong and dangerous practice and will lead to flawed career decision. Therefore, proper understanding and knowledge of the stream you opt for and the future career options they offer, is very important.

***Following are the different streams that are available after class 10:***

## • **HOW TO PICK THE RIGHT CAREER OPTION?**

Deciding what to do after Class 10 is a crucial decision and should never be taken in a haste. To simplify this process, you can follow a few simple guidelines that are provided below:

### **KNOW YOURSELF**

### **WHAT FACTORS GO INTO CHOOSING A CAREER?**

After knowing about the factors that go into choosing a career you should have a thorough understanding about the subject combinations that your school provides as well as career options after +2.

## **SCIENCE**

- THE USUAL FAVOURITE

Science is easily the most attractive stream and the one almost every parent wants their child to opt for. But as I told you don't follow the herd mentality or make decisions based on peer or parental pressure. Take your time, research on it, know yourself and then make your move.

If you are good at SCIENCE & MATHS and you like those subjects and you want to contribute to the society by entering into a profession related to Science, then only you should go for the Science Stream; otherwise kindly don't opt for it. You have other streams like Commerce and Humanities which have better scope these days.

### **SUBJECT COMBINATION FOR SCIENCE STREAM:**

<b><u>OPTION 1</u></b>	<b><u>OPTION 2</u></b>
ENGLISH	ENGLISH

verywell

- Career Planning is a must for every individual in order to become successful in life.
- Career Planning brings out the best within the individual and helps utilize person's skills and abilities to the optimum level.
- **SUGGESTION FOR PARENTS:**
  - It is good to research and find options for children but ultimately the child is the one who is going to take ownership of studying. Therefore, children should be given the freedom to choose.
  - Creating pressure for your child is not healthy for their mental health. Hence have a discussion with your child. Be open to listen to their ideas.
  - Talk with other people who give you correct information regarding the updated list of career options. If you stay updated then you can guide your child in a better way.
  - Avoid being rigid in your approach or while making decisions,
  - Encourage them to evaluate themselves.

- **SUGGESTIONS FOR STUDENTS:**

- Take ownership for your life and studies.
- Choose the subjects that you enjoy learning about and has already scored high in class 10. If you enjoy the subjects you have chosen then you will be happy. You will be ready to face challenges of that stream.
- Research about various career options available in various streams.
- Understand what are your strengths and weaknesses. It will help you to choose the suitable option.
- Always talk with a responsible adult and discuss about your doubts and ideas. It will help you to choose the suitable stream for you.
- Most importantly have an open discussion with your parents about how you want to contribute to the nation by opting for a particular stream.
- Try to make them understand about your ideas and future plans. Make them aware of the new career options and possibilities.
- Once you make a choice, you are responsible for that. You cannot hold anyone else responsible for your choices.

Thankyou.
